ART PLAYS AN IMPORTANT ROLE IN LIFE regardless of age, gender or raw talent. Art is used as a form of therapy, and can revitalize the spirit as well as the mind. Through creative play we can discover things about ourselves and develop our creative thinking. Developing creativity benefits all ages and can be transferred into success in school, work and life. The purpose of The Art Mill is to encourage everyone along their creative path, get them engaged in the process and benefits of creating, and make a few fantastic pieces of art along the way.
